Title: Need to set up an IIT in Tirunelveli district, Tamil Nadu.

SHRI S.S. RAMASUBBU (TIRUNELVELI): Sir, I want to mention a problem relating to my Constituency. Education is very important for the development of human resources. The human resource development is inevitable for the development of our nation. In Tamil Nadu, only Chennai has an IIT for higher technical education. Technical education is very important for the development of students as well as human resources. The students have to compete globally. In my Constituency of Tirunelveli, a large number of engineering colleges are situated but our students are not having the opportunities to pursue higher education in institutions like IIT. We need an IIT for Tirunelveli because it covers Kanyakumari and Tuticorin Districts up to Madurai. Higher education is inevitable for our students. Therefore, we need an IIT in my Constituency of Tirunelveli. This is my request to the Government.
